1.1 Product identifier

Product Name: Synthetic Graphite

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified use(s): Recarburizer, Friction reduction applications, Lubricants, Coatings, Oilfield uses, Conductive additive

Details of the supplier of the safety data sheet

Manufacturer: Superior Graphite
10 S. Riverside Plaza
Chicago, IL 60606
United States

Telephone (General): 312-559-2999 - (8am-5pm CST, M-F)

1.3 Emergency telephone number

Manufacturer: 1-800-424-9300 - For Hazardous Materials [or Dangerous Goods] Incident Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night
Manufacturer: +1 703-527-3887 - Outside USA and Canada (collect calls accepted)

Section 2: Hazards Identification

EU/EEC
According to: EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture

CLP: Not classified
DSD/DPD: Not classified

2.2 Label Elements

CLP: Hazard statements: No label element(s) required

DSD/DPD: May form combustible dust concentrations in air.

2.3 Other Hazards

CLP: May form combustible dust concentrations in air.
According to Regulation (EC) No. 1272/2008 (CLP) this material is not considered hazardous.

DSD/DPD: May form combustible dust concentrations in air.
According to European Directive 1999/45/EC this material is not considered dangerous.
United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the substance or mixture
OSHA HCS 2012
Combustible Dust

2.2 Label elements
OSHA HCS 2012
Hazard statements
May form combustible dust concentrations in air.

2.3 Other hazards
OSHA HCS 2012

Canada
According to: WHMIS

2.1 Classification of the substance or mixture
WHMIS
Notclassified

2.2 Label elements
WHMIS
No label element(s) required.

2.3 Other hazards
WHMIS
May form combustible dust concentrations in air.
In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

Section 3 - Composition/Information on Ingredients

Section 4 - First Aid Measures

4.1 Description of first aid measures
Inhalation
- Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. If breathing is difficult get medical attention.

Skin
- IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If irritation develops and persists, get medical attention.

Eye
- In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. Get medical attention.

Ingestion
- Do NOT induce vomiting. Rinse mouth. Do not give anything by mouth to an unconscious person. Get medical attention.

4.2 Most important symptoms and effects, both acute and delayed
- Refer to Section 11 - Toxicological Information.

4.3 Indication of any immediate medical attention and special treatment needed
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

4.4 Other information
- Call 911 or emergency medical service. Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination.

5.1 Extinguishing media

Suitable Extinguishing Media
- LARGE FIRE: Water spray, fog or regular foam.
- SMALL FIRES: Dry chemical, CO2, water spray or regular foam.

Unsuitable Extinguishing Media
- No data available.

5.2 Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
- Dust dispersed in air in sufficient concentrations and in the presence if an ignition source is an explosion hazard.

Hazardous Combustion Products
- Graphite will burn, giving off carbon dioxide and potentially carbon monoxide.

5.3 Advice for firefighters
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Structural firefighters' protective clothing will only provide limited protection.
- LARGE FIRES: Move containers from fire area if you can do it without risk.
- LARGE FIRES: Do not scatter spilled material with high pressure water streams.
- LARGE FIRES: Dike fire-control water for later disposal.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions
- Avoid contact with material that generates respirable dust unless proper PPE is used.
- Do not walk through spilled material.

Emergency Procedures
- Use normal clean up procedures. Ventilate closed spaces before entering.

6.2 Environmental precautions
- Avoid run off to waterways and sewers.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures
- Carefully shovel or sweep up spilled material and place in suitable container.
- Avoid generating dust.

6.4 Reference to other sections
Section 7 - Handling and Storage

7.1 Precautions for safe handling

Handling

- Use only with adequate ventilation. Use appropriate Personal Protective Equipment (PPE). Do not breathe dust. Avoid accumulation of dust. Good housekeeping practices should be in place to prevent accumulation of dust on surfaces. If dusts are generated during processing eliminate ignition sources. Take precautionary measures against static charges. Graphite is conductive and can cause short circuits and other electrical malfunctions. Graphite causes slippery conditions. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

7.2 Conditions for safe storage, including any incompatibilities

Storage

- Ventilate enclosed areas. Keep container closed.

7.3 Specific end use(s)

- Refer to Section 1.2 - Relevant identified uses.

8.1 Control parameters

<table>
<thead>
<tr>
<th>Exposure Limits/Guidelines</th>

<td>15 mg/m3 TWA (synthetic, total dust); 5 mg/m3 TWA (synthetic, respirable fraction)</td>
</tr>
</tbody>
</table>

8.2 Exposure controls

Engineering Measures/Controls

- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. All dust control equipment should contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment. Make sure that dust handling systems are designed to prevent escape of dust into the work area and that they do not leak.

Personal Protective Equipment

Respiratory

- For limited exposure use an N95 dust mask. For prolonged exposure use an air-purifying respirator with high efficiency particulate air (HEPA) filters. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face

- Wear protective eyewear (goggles, face shield, or safety glasses). Eye wash station should be available.

Hands

- Wear protective gloves.

Skin/Body

- Wear long sleeves and/or protective coveralls.

Environmental Exposure Controls

- Follow best practice for site management and disposal of waste. Controls should be engineered to prevent release to the environment, including procedures to prevent
spills, atmospheric release and release to waterways.

Key to abbreviations
ACGIH = American Conference of Governmental Industrial Hygiene
NIOSH = National Institute of Occupational Safety and Health
OSHA = Occupational Safety and Health Administration
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions

Will not occur.

10.4 Conditions to avoid

Accumulation of dusts - mixtures of graphite dust and air are explosive when ignited.

10.5 Incompatible materials

Strong oxidizing agents, acids, and alkalis.

10.6 Hazardous decomposition products
On burning may release carbon dioxide and carbon monoxide.

#### Route(s) of entry/exposure

- Inhalation, Skin, Eye, Ingestion

#### Medical Conditions

- Disorders of the lungs.

#### Potential Health Effects

##### Inhalation

- **Acute (Immediate)**: Exposure to dust may cause irritation.
- **Chronic (Delayed)**: No data available

##### Skin

- **Acute (Immediate)**: Exposure to dust may cause mechanical irritation.
- **Chronic (Delayed)**: No data available.
Eye

**Acute (Immediate)**  
Exposure to dust may cause mechanical irritation. Excessive concentrations of nuisance dust in the workplace may reduce visibility and may cause unpleasant deposits in eyes.

**Chronic (Delayed)**  
No data available.

**Ingestion**

**Acute (Immediate)**  
Excessive concentrations of nuisance dust in the workplace may cause mechanical irritation to mucous membranes.

**Chronic (Delayed)**  
No data available.

**Carcinogenic Effects**  
This material contains Quartz which is considered a carcinogen, however this material as a whole is not classified as a carcinogen.

**Section 12 - Ecological Information**

**12.1 Toxicity**  
Data lacking.

**12.2 Persistence and degradability**  
Data lacking.

**12.3 Bioaccumulative potential**  
Data lacking.

**12.4 Mobility in Soil**  
Data lacking.

**12.5 Results of PBT and vPvB assessment**  
PBT and vPvB assessment has not been conducted for this material.

**12.6 Other adverse effects**  
No studies have been found.

---

**Section 13 - Disposal Considerations**

**13.1 Waste treatment methods**

- **Product waste**  
  Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

- **Packaging waste**  
  Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

---

**Section 14 - Transport Information**
### 14.6 Special precautions for user

- None specified.

### 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

- Data lacking.

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
